

NEWSLETTER 2003

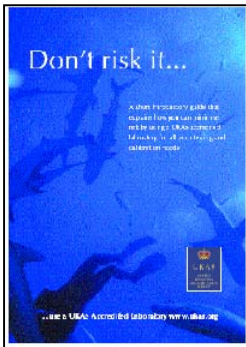

UKAS TEMPERATURE ACCREDITATION

0404

We are delighted to announce that our application for temperature calibration has been accredited and submitted for approval during August 2003. This add's to our current, DC, LF and EHT accreditation. The range being accredited is -20°C to +200°C with a typical uncertainty of ± 0.2° maximum, please call us to for an issue date.

DON'T RISK IT

This is the title of a new booklet issued by the United Kingdom Accreditation Service (UKAS) and is a short introductory guide that explains how you can minimise risk by using a UKAS accredited laboratory for all your testing and calibration needs. Also see the website at www.ukas.org. Copies of this leaflet can be obtained by sending an email to: nikki.lond@hitek.co.uk.

PAT TESTER HIRE

Did you know that our rental inventory includes a range of PAT testing equipment? Weekly hire rates start at £110 and this means that you can complete all the statutory electrical safety testing in-house.

Give us a call to book 01403 243535

CONGRATULATIONS!

To all those who won passenger travel to France vouchers by entering our website competition. Please remember to complete your travel by 30th September 2003.

Our sister company based at www.hitek-sales.co.uk are delighted to announce a new distributorship.

Megger.

COMMONLY ASKED QUESTIONS ANSWERED

You may not have seen our power point presentation, which answers commonly asked questions about our range of services including accreditation details and capability schedules. If you would like a copy emailed or snail mailed to you, please email: sales@hitek.co.uk.

CALIBRATION REMINDERS

A note of clarification. Calibration reminders are computer generated approximately 4-6 weeks prior to your equipment being due. Mobile calibration customers receive one by default; we aren't going mad!

You will usually receive with it our current mail out, a collection request form if applicable and a chocolate biscuit! Watch out for it!

MOBILE CALIBRATION SURVEY REPLIES, WELL DONE CHAPS!

We are delighted to confirm that we averaged 9.5 out of 10 on returned questionnaires. With comments such as "excellent service" repeated again and again. Well done our engineering team!
